

ENTRY LEVEL ELECTRONIC, MECHANICAL, ASSEMBLY TECHNICIAN

Macro Inc. is in its 43rd year of business. We provide Nuclear Fuel Inspection systems to nuclear fuel manufacturers around the world. The nuclear market is growing ... and Macro is too!

We want motivated, energetic, and enthusiastic people to work in all areas of nuclear fuel inspection.

Our ideal candidate is someone who shows personal initiative and maintains their composure and a good attitude. Macro employees must be responsible, hardworking, and conscientious about the quality of work performed. We need people who are not afraid to make suggestions and won't get discouraged along the way; people who are continually looking forward to improvements, streamlining of work, and cost savings.

Looking for a challenging career? We have an immediate opening for an entry level electronic and mechanical assembly technician. If you have what it takes, you can rapidly advance into trouble-shooting, repair and development of hardware, electronics, and software used in nuclear fuel inspection systems.

You'll start off by getting certified to **IPC J-STD-001** for soldering. We'll introduce you to the tools we use: Solidworks, MS Visual Studio, and Altium Designer. We want self starters who will run with what we give them, master them, then look for more.

PREFERRED APPLICANTS WILL HAVE:

- Experience in building computers, electronic equipment, soldering for fun or profit
- Excellent communication and computer skills
- Flexibility to work extended hours, weekends, with comp time
- Ability to rapidly change tasks in a fast paced, challenging work environment
- Ability to identify and implement efficient paths of action to complete assigned work

REQUIREMENTS

- Must have High school diploma or equivalency certificate
- Must be local resident, or able to move. No telecommuting.
- Must be 18 years of age or older
- Must pass background check (nuclear fuel customer requirement)
- Must pass drug test (nuclear fuel customer requirement)
- Must be able to use common hand and machine tools and PPE
- Must have good command of English language, verbally and visually.
- Must not be color blind (able to distinguish electrical color codes)
- Must be a US citizen eligible for a US passport.
- Must be able to lift 30 lbs unassisted

WHAT WE OFFER:

- Full time (40 hours/week) salaried position, starting at \$22/hour.
- Part time \$15/hour, to right person (school, intern) with intention of moving into full time.
- Full time includes: health insurance (after 1 month), accrue paid vacation 1 week per year.
- Flexible work schedules and time off when needed.
- Opportunities to travel to support our customers in the US, Europe and Asia

RESUME, TELL US YOUR:

- Education and certifications (CompTIA, A+ etc)
- Military experience
- Hobbies, skills, clubs
- Experience with IT, electrical and mechanical things.
- Software familiarity such as: Solidworks, MATLAB, Visual Studio C#, or similar.
